# BadgerNet iPad App

- The iPad app uses the same forms as the PC version, but shows them in a slightly different way.
- Your existing BadgerNet username and password will work in the iPad app.
- When you log in to the app, you will be asked to choose a 6 digit PIN.
  - As long as you are logged in, you can use this PIN instead of your username and password.
  - If someone else has used the app after you, then you will need to create a new PIN the next time you log in.

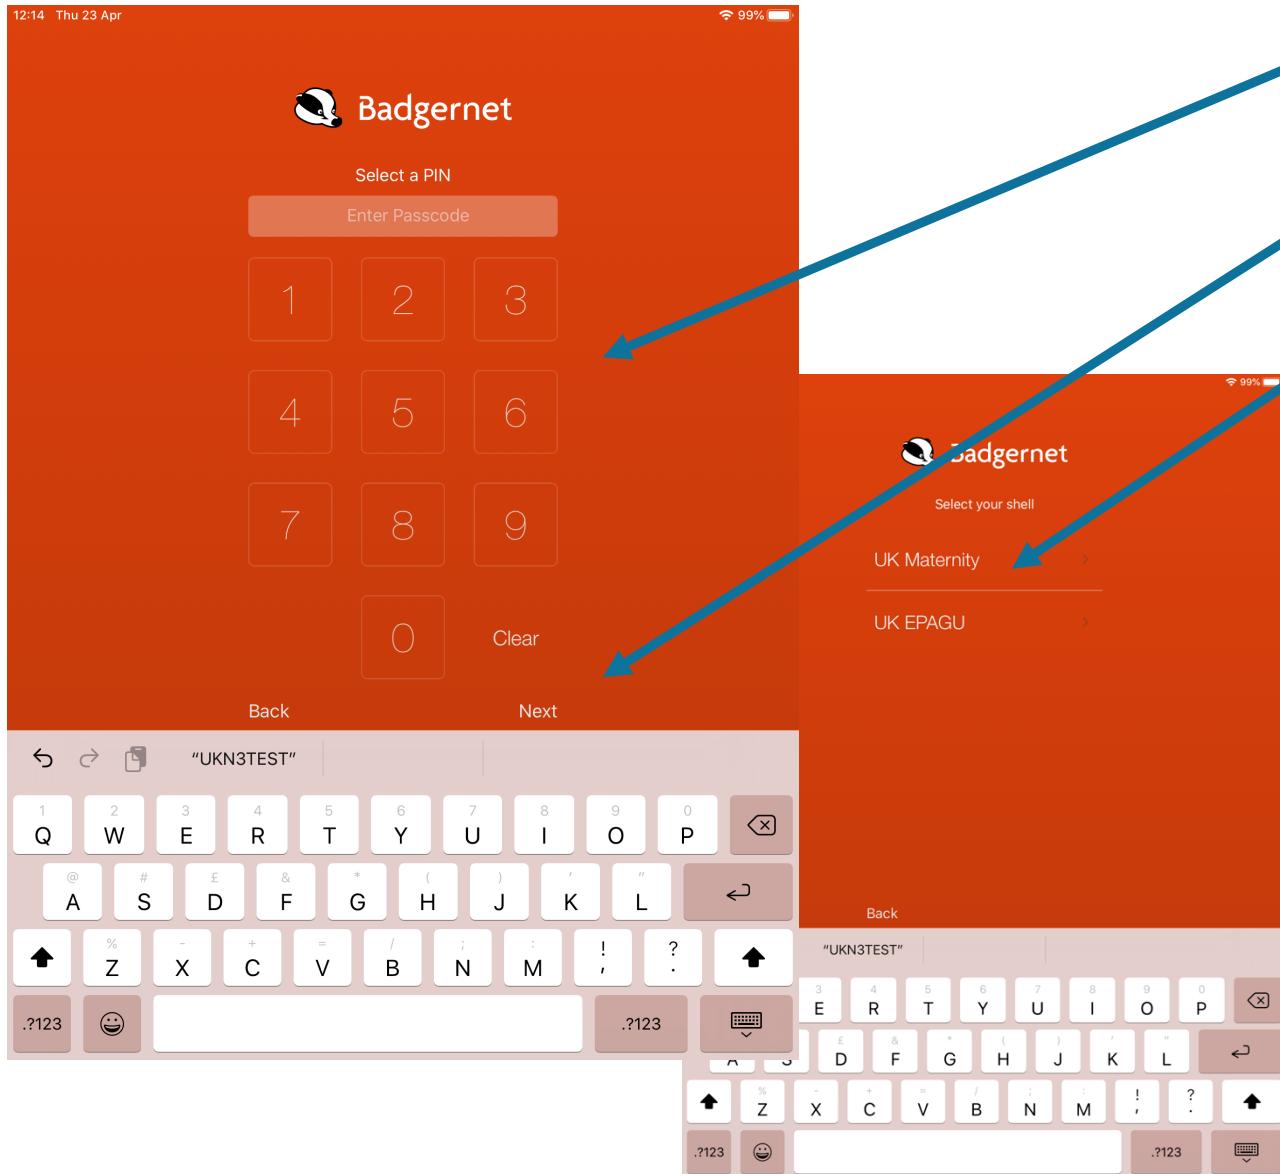

# Logging In – Enter Your User Details

12:13 Thu 23 Apr

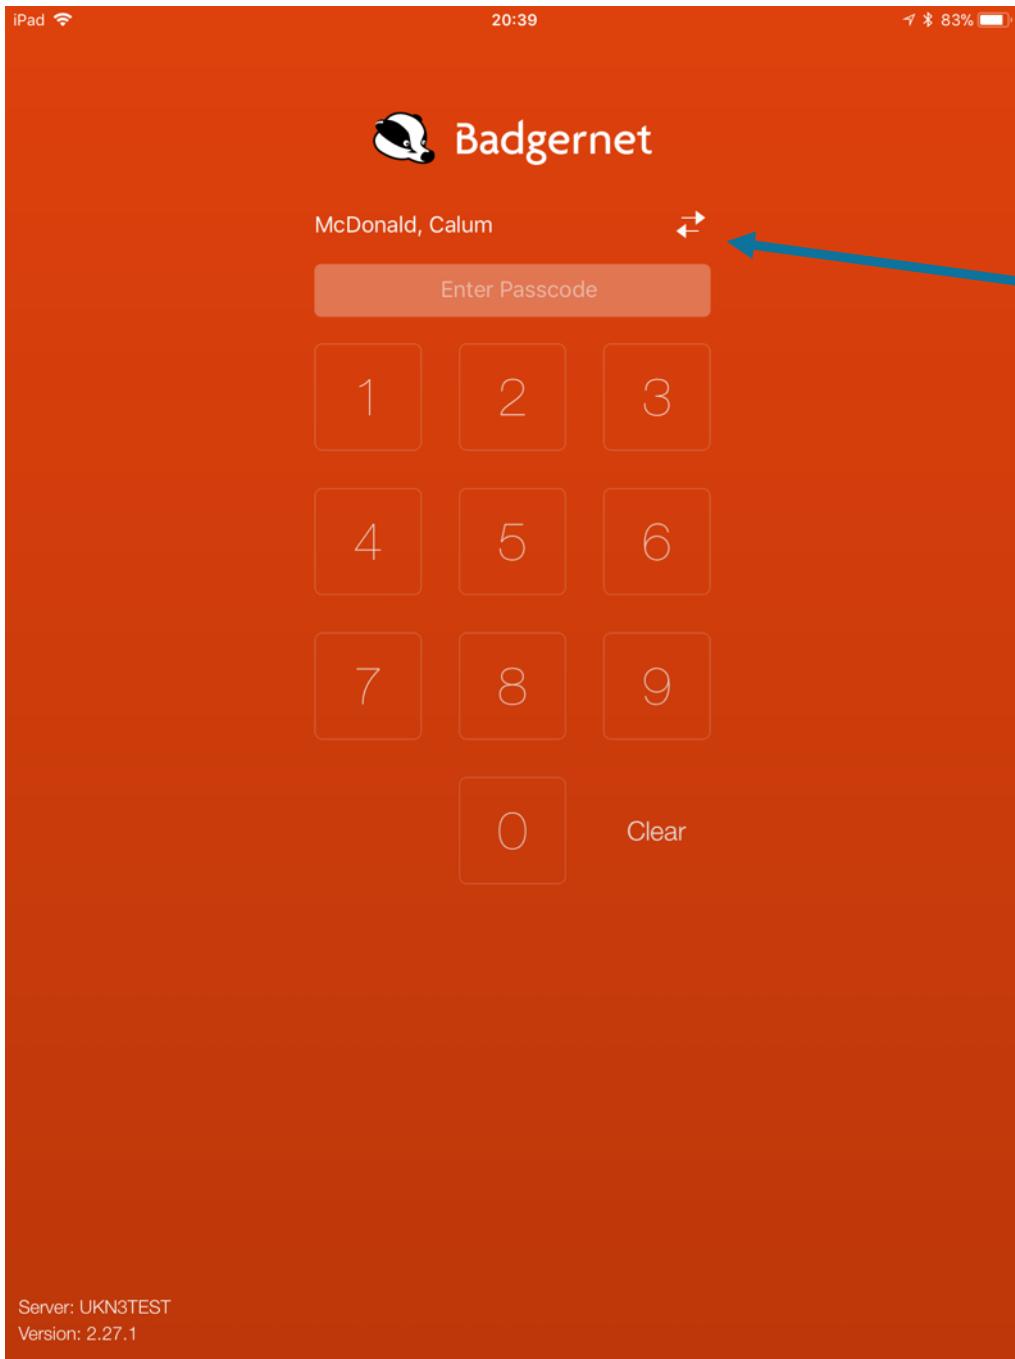

- This box should always have UKN3 in it.
- Enter your username and password here.
- Click Next.

# Logging In – Choose a PIN

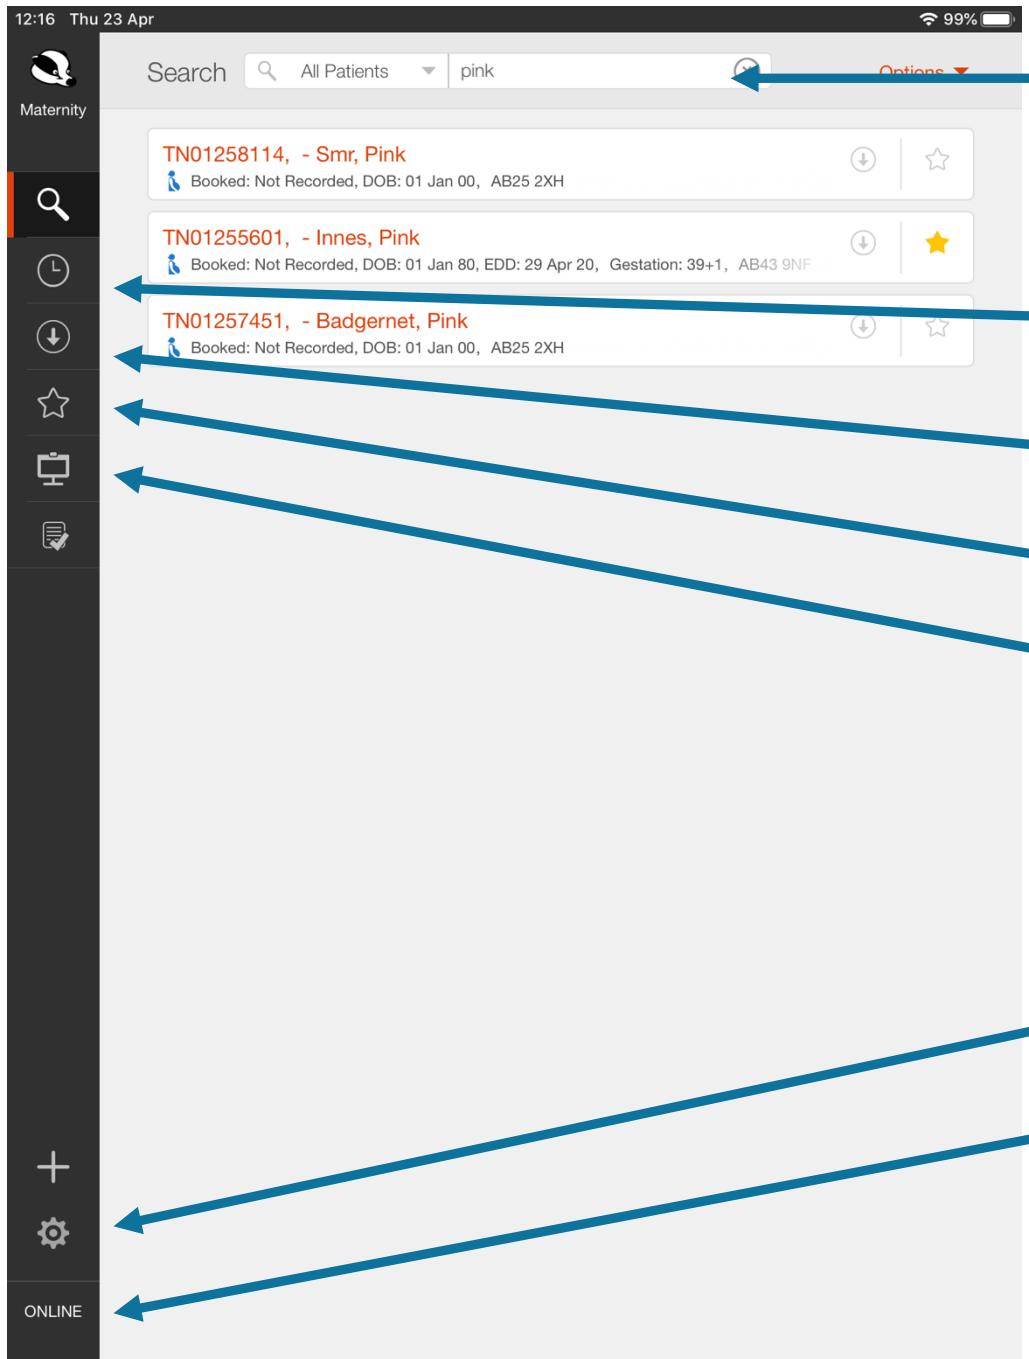

- Choose a six digit PIN using the keypad.
- Tap Next and re-enter the PIN and tap Next again.
- Tap UK Maternity.
- Your PIN can be used to quickly log in to the app again, as long as you are still logged in. If someone else has logged in then you will need to start again as shown on the next page.
- Your PIN can be used to authorise some notes in BadgerNet.

# Logging In

- If someone is already logged in you will see this screen. If it's you, enter your Passcode to open the app.
- If it's not you, tap on the two arrows pointing in the opposite direction to go back to the log in screen.

# Main Screen

- Enter the CHI or name of the patient you are searching for. **If searching by name, confirm the DOB and CHI match your patient.** Tap on a patient to open their record.
- See patients you have recently viewed.
- See patients you have downloaded to the app for offline use.
- See patients marked as favourites.
- Whiteboards, or patient lists.
- **The app only remembers recent, downloaded and favourite patients as long as you are signed in.**
- Tap here for settings and to log out.
- This shows if you are online or offline.

- Search for a note here.
- Filter notes by type here.
- Only notes types that have been completed will show in the list.
- This number shows how many notes of this type have been entered.
- Tap on each note here to show it in the right hand side of the screen.

# New Notes 1

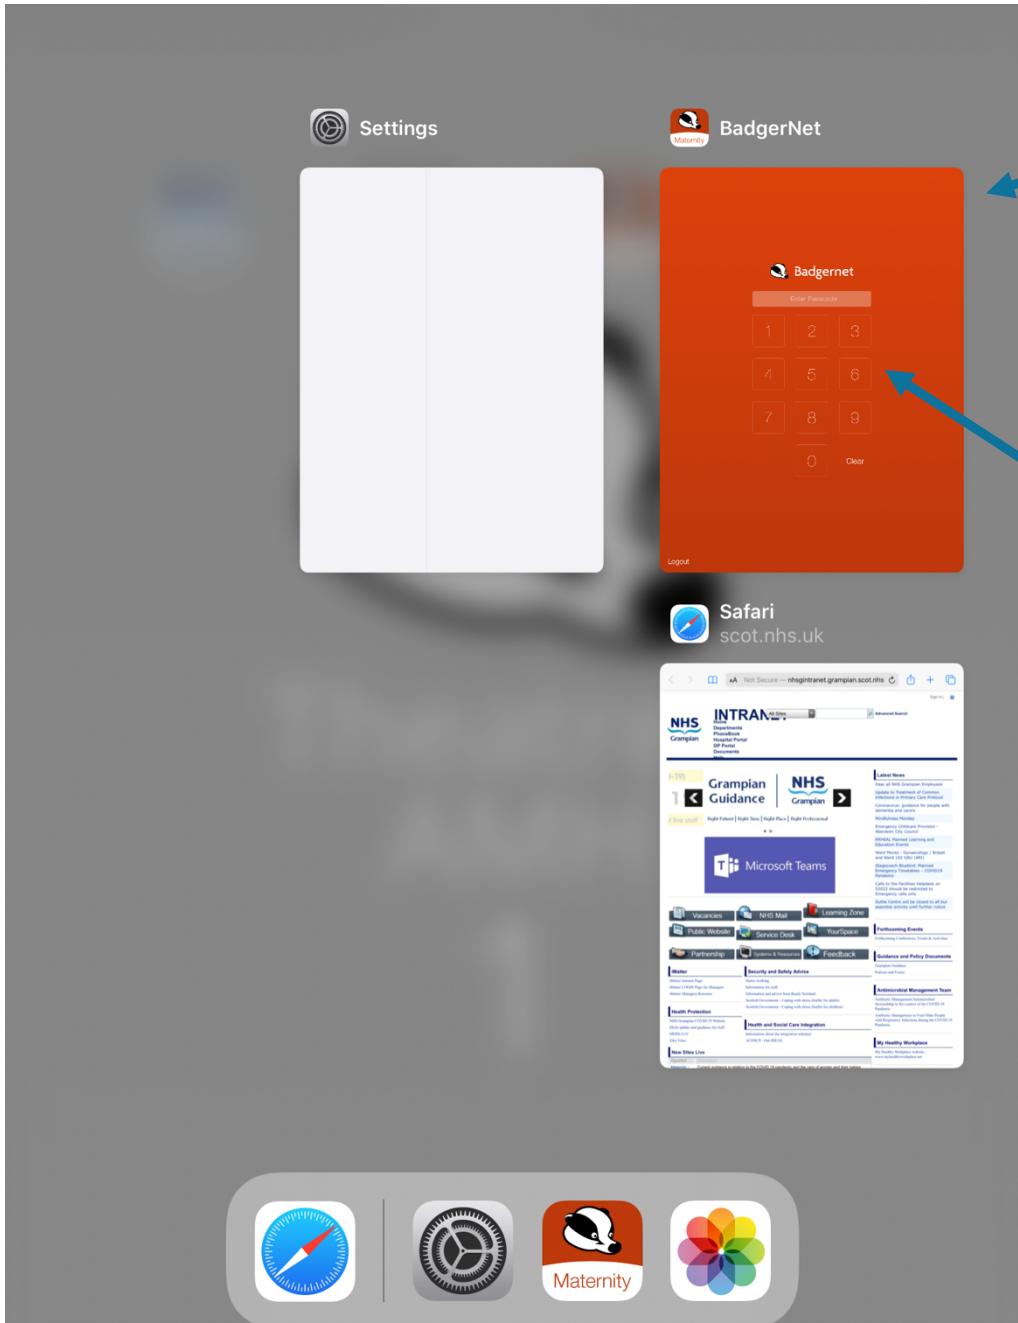

- Tap here on 'Search in record' to search for the type of note you want to create.
- As you type in the box, the list of notes will decrease.
- Tap to create the note.
- You can also see a list of all notes available by tapping on the New Notes tab of the menu.

# New Notes 2

- All the notes are the same as on BadgerNet on the PC, they are just presented in a different way.
- Change the date and time of the note by tapping here.
- This window will pop-up. Scroll to change the date and time.
- Tap on the fields to enter information.

# iPad Offline

- Occasionally, if the iPad may lose the WiFi connection and then reconnect.
- This can cause the BadgerNet app to go into offline mode even though the WiFi is connected.
- To reconnect:
  - Double click the home button at the bottom of the iPad.
  - Swipe the BadgerNet app up to close it.
  - Press the home button to go back to the main screen.
  - Re-open BadgerNet.

# Problems?

- Ask a midwife for general BadgerNet advice.
- Email me at [calummcdonald@nhs.net](mailto:calummcdonald@nhs.net)
- Email Morag Ogston, BadgerNet Support Midwife at [morag.ogston@nhs.net](mailto:morag.ogston@nhs.net)
