Caesarean Section Clinic

- All patients attending the Caesarean Section Pre-Operative Assessment Clinic will have their clinic check and anaesthetic review recorded in BadgerNet.
- Two notes are used for this:
 - Pre-Operative Checklist
 - Part A is the first part and is completed by the midwife.
 - Anaesthetic Pre-Op Review
 - This is completed by the anaesthetist.
 - No paper anaesthetic record is created at this stage.
- Both these notes can be found on the Anaesthetic Summary page.

All Other Patients

- All other patients will have an Anaesthetic Pre-Op Review note completed in BadgerNet to document their anaesthetic assessment.
- Part A of the Pre-Operative Checklist will not be completed.
- Part B and C will be used. Refer to the separate guide on using the Pre-Operative Checklist.

- This note contains the non-obstetric surgical and anaesthetic history.
- Edit and update it if anything is missing.
- The additional notes box at the bottom does show on the Anaesthetic Summary page, so can be used.

Recording an Anaesthetic Assessment

- Create an Anaesthetic Pre-Op Review note – see next page.
- Create a new review note for each assessment. For example if a patient has an assessment for an epidural then needs to go to theatre, a new assessment should be created in order to document consent.
- All Anaesthetic Pre-Op Review notes will show on the Anaesthetic Summary page.
- Fill in as much relevant detail as possible.
- If you need to record a new allergy, use the Allergy/Adverse Reaction note. Search for it in the Enter new note... box at the top left.
